

Transform Digital Experiences with Bizalom's Enterprise CMS & DXP Solutions

Create. Personalize. Scale. Deliver Exceptional Customer Journeys Across Every Channel.

Introduction

At Bizalom, we empower organizations to build powerful digital experiences using advanced Content Management Systems (CMS) and Digital Experience Platforms (DXP).

From strategy and consulting to seamless implementation and ongoing support, we help businesses:

- ▶ Create engaging digital content
- ▶ Deliver personalized customer experiences
- ▶ Integrate seamlessly with enterprise systems
- ▶ Scale confidently with future-ready technologies

Our expertise spans both open-source and enterprise platforms, enabling businesses to leverage AI-driven personalization, automation, analytics, and omnichannel delivery – all from a unified ecosystem.

With Bizalom, your digital transformation journey becomes smarter, faster, and more impactful.

5 Reasons to Choose Bizalom for CMS & DXP

Simplified Content Operations

Streamline content creation, publishing, and governance while reducing operational complexity.

Enterprise-Grade Security & Compliance

Protect sensitive data with robust security frameworks and regulatory compliance support.

Scalable & Future-Ready Architecture

Solutions designed to grow with your business, handling increasing traffic and content demands.

Seamless Integration Capabilities

Connect CMS/DXP with ERP, CRM, eCommerce, Marketing Automation, and other enterprise systems.

Continuous Optimization & Support

Ongoing maintenance, performance monitoring, and innovation to keep your digital platforms ahead.

Secure & Compliant Architecture

TECHNOLOGIES WE SUPPORT

Powering Digital Excellence with Leading CMS & DXP Platforms

At Bizalom, we work with world-class content management and digital experience platforms to deliver scalable, secure, and future-ready solutions.

Kentico

Enterprise-ready CMS & DXP platform enabling advanced personalization, marketing automation, and seamless omnichannel content delivery. Ideal for businesses seeking integrated marketing and secure digital ecosystems.

Adobe Experience Manager (AEM)

A powerful enterprise content management solution that delivers personalized, data-driven digital experiences across web, mobile, and commerce platforms with seamless scalability.

WordPress

Flexible and highly customizable CMS platform suitable for websites, blogs, and eCommerce stores – enhanced with enterprise-grade security and performance optimization.

Magento (Adobe Commerce)

Robust eCommerce platform designed for scalable online stores, advanced product management, seamless integrations, and superior customer shopping experiences.

Acquia (Drupal)

Enterprise-grade Drupal DXP offering advanced content governance, personalization, multilingual capabilities, and secure digital infrastructure for large-scale organizations.

Shopify

Agile and scalable eCommerce solution for businesses looking to launch, manage, and grow online stores with seamless integrations and conversion-focused experiences.
